DESIGN

With 15 years of experience combined we can help you with all sorts of projects from laying out the perfect private space to let you relax and enjoy the show nature has to offer, all of that in your own plot.

Let us help you have a garden that you can enjoy. We create private spaces that nurture the soul.

INSTALL

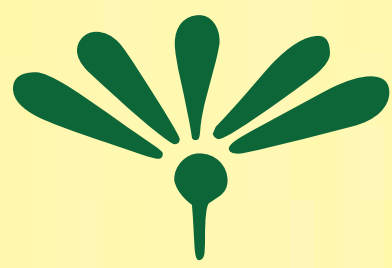

From hardscape—whatever involves stones, sand, cement, wood, and iron to build perennial structures to softscape where we shape the landscape with trees, bushes and flowers instead we do it all.

MAINTAIN

And after it is in place we can either hand over the keys to you or let you kick back your shoes when we do all the work in a professional, enjoyable way. Pruning, cutting, raking, deadheading, watering and feeding the plants as they need it.

Our team

Janet is our expert in plants and local growers. She is always on the prowl for that little something that will make your garden shine

Dave is our problem solver, making miracles happen one spade at a time. He isn't happy until you are.

Sara is our landscape architect with a passion for small spaces she can make a patio sing, really!

JOIN THE LIST

Join the list and be green-listed. You will then have access to our Almanac chock full of tips and timed to make your plants happy.

CONTACT

If you have any question for us, need a quote, a reference or want to help us. Drop us a line!

Your name

email address

Message

We pride ourselves in using only local material, people and plants. We can always get you that exotic plant but we may be able to suggest one from New England with as much glamour and sparks and less environmental cost.

LOCAL GROWERS

Almanac

We provide our client with an Almanac that is full of tips, advices and other bits of information whether you want to grow as a gardener or just have fun in the dirt.

Twitter

beesgarden: Good news regarding farmer's market. Somerville has had one running continuously through the winter. Need to check how much of it is greenhouse grown and what is imported.

Friday 17th February 2012 15:06 PM GMT

beesgarden: Long time, no tweet! Wasn't it a lovely sunday? Spring is around the corner.

Sunday 12th February 2012 20:53 PM GMT

beesgarden: Time to think about planning your garden. Check out our almanac and get ideas.
